To Whom It May Concern,

This is to certify that M/S Al Ansari Trading Enterprise LLC have successfully completed the construction, commissioning and handing over of the works for the Water Supply Scheme to Liwa Wilayat project.

The project included a 1,500 m³, 30 meter high concrete water elevated tower, a pump house, a chlorination building, and administration building, a stores and workshop building, electric generator two tanker filling stations, guard houses and related electrical, mechanical and control and instrumentation works. Additionally, over 130 km of Ductile Iron and HDPE distribution pipelines were part of the scope of works with diameters ranging from 100 mm to 500 mm.

M/S Al Ansari Trading Enterprise LLC, as the main contractor for the project, endeavored to execute the works in accordance with the contract requirements, fully cooperated with the various authorities in resolving issues arising from the execution of the works, and generally complied with instructions issued by the Employer and Engineer.

Charbel Behar
Project manager
