### TO WHOMSOEVER IT MAY CONCERN

The Buraimi Water Supply Extension (Al Dhahirah Region) contract valuing Rials Omani 1.109 million was awarded to and successfully completed by M/s Al Ansari Trading Enterprise LLC (Contracting Division) for the Ministry of Electricity and Water under our consultancy.

The work involved construction and maintenance of 48 Km. of water transmission and distribution pipelines (Asbestos Cement/Ductile Iron) of 100 mm to 600 mm dia., RCC Reservoir of 835 M<sup>3</sup> capacity, Chlorination Plant, Booster Pumps, Pillar type Hydrants, valve/washout/hydrant chambers, interconnections to the existing lines, 11 KV overhead lines with transformer and access road works, etc.

We are pleased to record that M/s Al Ansari Trading Enterprise LLC has completed the work in a professional manner. The work was systematically planned with correct priorities and was executed to desired schedule and technical standards to our satisfaction. The Al Ansari personnel working on the project had a high level of competency and were clearly focused on the needs of the project.

We are happy with the approach and manner in which the work was carried out by M/s Al Ansari Trading Enterprises and have no hesitation in recommending them for similar projects.
