TO WHOMSOEVER IT MAY CONCERN

The Upgradation of the Sewage Treatment Plant at Rusayl Industrial Estate for PEIE was awarded to Al Ansari Trading Enterprise LLC (Contracting Division) under our consultancy for Public Establishment for Industrial Estates.

The STP Upgradation work involved replacing the existing Fine Bubble and Coarse Bubble Aeration Systems, providing Submersible Mixers, V Notch Weir, Construction of Sludge Drying Beds, Equalisation Tank and associated Pumping System, Pipeline, Mixer, Control Panel, Electrical Work, Penstocks and Instrumentation such as Air Flow Meters, D.O. Meters, Solenoid Valves, H₂S & Combustible Gas Detection, Ultrasonic Level Transmitter, Tilting Level Switch etc.

We are happy with the work executed by Al Ansari, who have shown a high professional standard in satisfactorily completing the work. The work was carefully planned and co-ordinated with the O & M Contractor by Al Ansari, to ensure continuous operation of the existing plant and minimal disturbance to the end-user. They have extended their full co-operation to ensure that the job was completed smoothly to the desired technical standards and on schedule.

We have no hesitation in recommending Al Ansari Trading Enterprise LLC for works related to Sewage Treatment Plants.
