17 November 1996

**Ministry of Defence Project Nr. MOD/85/109B
Water Supply System Upgrade, Thumrait**

We confirm that M/s. Al Ansari Trading Enterprise LLC has executed the civil and mechanical works of the above project for which we were the consultants.

The work involved refurbishment and/or replacement of old ancillaries and installation of new ancillaries in respect of valves, fire hydrants and water meters of the water supply network in two MOD camps in Thumrait.

This work required careful planning and coordination to ensure that the existing services were not disrupted whilst the work was carried out. Al Ansari were able to complete the work on schedule to our satisfaction with minimum disturbance and inconvenience to the occupants.

Therefore we have no hesitation in recommending M/s. Al Ansari Trading Enterprise LLC as a reliable civil and mechanical contractor in water supply works.

Yours faithfully
for **TRAVERS MORGAN (OMAN) LTD**
